Answer key

161. **liquefy**

Ice cubes left on the counter will liquefy within an hour on a hot day.

162. **psychology**

She enrolled in a psychology course to understand why people make irrational decisions.

163. **desiccate**

The intense desert heat can desiccate a body within hours.

164. **grandeur**

Visitors stood silent, awed by the grandeur of the marble staircase and gilded ceilings.

165. **guillotine**

During the French Revolution, crowds gathered in the square to watch the guillotine fall.

166. **scimitar**

The museum displayed a jewelled scimitar once carried by a Persian cavalry officer.

167. **column**

Each marble column supported the weight of the ancient temple's roof.

168. **persuasive**

His persuasive argument won over even the most sceptical members of the committee.

169. **haemoglobin**

Low haemoglobin levels in her blood test explained why she felt tired and breathless.

170. **wilful**

His wilful refusal to apologise dragged the argument out for weeks.

171. **consequently**

The bridge was closed for repairs; consequently, traffic was diverted through the town.

172. **sovereign**

The nation had been a sovereign state since gaining independence in 1960.

173. **adrenaline**

A surge of adrenaline hit her as the roller coaster plunged over the first drop.

174. **oscillate**

The pendulum continued to oscillate long after the clockmaker had stopped watching it.

175. **magnificent**

From the summit, the view of the valley below was absolutely magnificent.

176. **leisure**

After the exams finished, she finally had leisure to read novels for pleasure again.

177. **competence**

Her competence at handling emergencies reassured the entire surgical team.

178. **psychiatrist**

The psychiatrist prescribed medication after several sessions of talking through his symptoms.

179. **naivety**

His naivety about business deals meant he almost signed a contract without reading the fine print.

180. **aisle**

He grabbed a trolley and headed down the cereal aisle.
